The department may enter the premises of a qualified patient or primary caregiver during business hours for purposes of monitoring and compliance. 24 hours notice will be provided to the qualified patient or primary caregiver prior to an on-site assessment except when the department has a reasonable suspicion to believe that providing notice will result in the destruction of evidence or that providing such notice will impede the department's ability to enforce these regulations.

(2) All qualified patients or primary caregivers shall provide the department or the department's designee immediate access to any material and information necessary for determining compliance with these requirements.

(3) Failure by the qualified patient or primary caregiver to provide the department access to the premises or information may result in the revocation of the qualified patient or primary caregiver enrollment and referral to state law enforcement.

(3) The administrative review committee shall conduct the administrative review on the summary suspension by reviewing all documents submitted by both the participant and the department.

(5) An enrollee given notice of summary suspension by the medical cannabis program may submit a written request for an administrative review. To be effective, the written request shall:
